LE MANOIR RICHELIEU

The Charlevoix Flavor Trail

Charlevoix has a long-established reputation for agro tourism and fine dining. In a region where culinary expectations are high, producers must step up to the gourmet plate. The area's various hotels and inns use creative means and take great care with the dishes they prepare to set themselves apart.

The Flavor Trail grew out of the special ties between producers and chefs. Producers open their doors to visitors seeking to discover the secrets of farming and processing. At most farms, products can be sampled and purchased on site. As for chefs, they combine these same local products with everyday foods to create exciting new taste sensations. Traveling the Flavor Trail is a unique way to discover the region and people of Charlevoix.

La Ferme Basque de Charlevoix (St-Urbain)

Located at the foot steps of the Parc des Grands Jardins, in the village of St Urbain, the Ferme Basque de Charlevoix is specialized in a small scale production of Mulard foie gras ducks. When visiting the farm, you will learn about traditional methods of duck breeding and «*gavage*». The traditional methods respect the animals' well-being and guarantee authentic products that you will have the chance to taste.. During your activity, you will visit the farm, get to know more about the methods and finally taste the high end products as foie gras.

Laiterie Charlevoix (Baie St-Paul)

An interpretation centre on cheese making illustrates the process, exhibits historic equipment and allows visitors to sample products. Our main activity is a wine and local cheese tasting accompanied with some specific products of Charlevoix as Emu, smoke fish (salmon, trout), the famous veal of Charlevoix and much more.

Les Jardins du Centre (Les Éboulements)

One visit is worth a thousand words at Les Jardins du Centre. The fields are full of tasty surprises : fruits and vegetables in every shape and colour, such as blue potatoes, yellow beets, yellow and purple carrots, etc.

Included :

- Guided tour
- Presentation of the different products
- Tasting of a special selection of their most popular products
- Home made fruit in the alcohol work shop
- Fruit in the Alcohol tasting
